**Follow Up Flag:** Follow up  
**Flag Status:** Flagged

To Whom It May Concern,

Clean distributed generation (Clean DG) like solar, wind, and fuel cells will help transition Connecticut away from fossil fuels and towards a clean energy future. H.B. 6023 would increase deployment of Clean DG resources by ensuring that consumers and businesses are adequately compensated for the value they provide to the grid, ratepayers, and society.

Thanks for your consideration.
